Summary

Motivated Software Engineering student with strong problem-solving abilities and hands-on experience in developing full-stack applications and software solutions. Skilled in designing scalable systems, building collaborative platforms, and applying machine learning to solve real-world problems. Eager to contribute technical expertise, learn continuously, and grow as a software engineer in a challenging professional environment.

Education

Integrated M.Tech in Software Engineering, *Vellore Institute of Technology* 08/2023 – Present
CGPA: 8.98/10.0 Vellore

Secondary School Education (CBSE), *St Xavier's High School* 2019 – 2020
94.4% Balrampur

Intermediate (CBSE), *St Xavier's High School* 2021 – 2022
93% Balrampur

Technical Skills

Languages

Java, Python, JavaScript, SQL

Databases & Tools

MySQL, MongoDB, Git, GitHub, Docker, Maven, Postman

Web Development

HTML, CSS, React.js Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs

Core Concepts

Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems ,Computer Networks

Projects

EduMania- E Learning Platform

EduMania is an e-learning platform built with Spring Boot, Maven, and MongoDB that delivers interactive online courses, quizzes, and learning resources to students and educators.

VIT Venue Finder

VIT Venue Finder is a web-based application designed to help students and faculty quickly locate available classrooms, and academic venues within the VIT campus.

student Facial Expression Analysis

A Facial Expression Analysis System developed using Artificial Intelligence and Deep Learning techniques to automatically detect and classify human emotions from facial images.
